…ing in the clause promising trial by military court-martial of all persons in any manner implicated.

The loyal actors now in the city—some of whom have done honorable service in the Union army—have prepared a series of resolutions expressive of their detestation and abhorrence of the cowardice and brutality by which the President was murdered, while attending upon an exhibition of the histrionic art.

Sufficient evidence has already been obtained to render it certain that a deep laid conspiracy was matured for the overthrow of the Government by general assassination.

It was ex-Gov. Farwell of Wisconsin, and now of the Patent Office, and not Senator Farwell of Maine, as published, who was first to apprise Mr. Johnson of the assassination of the President. Within ten minutes he had a strong guard at the Vice-President's door. The subsequent discovery of the knife and pistols in the adjoining room, with other circumstances, would indicate that Gov. Farwell's timely action averted a similar terrible fate from the Vice President.

Order has been completely restored in this city, and the military have been disbanded. The determination expressed by President Johnson not to treat with the Rebel leaders has given great satisfaction, and a disposition is manifested to accord to his administration general confidence.

Booth Again Reported in Pennsylvania.

The Arrest of a Man at Tamaqua for Identification.

READING, Penn., Thursday, April 20, 1865.

I have just seen Mr. Lyon, a United States detective officer, from whom I get the following relative to the Booth affair.

The report that Booth came to Reading on the train is correct. He was in Reading all day.

The man that recognized him informed detective Lyon of his being in town, and that he knew it was Booth.

Mr. Lyon immediately, in company with Mr. Miller, another detective, proceeded to trace him.

They finally traced him to the depot and ascertained that a man answering his description had got on the train which had just left.

The facts were immediately made known to Mr. G. A. Nichols, Superintendent of the road, and an effort was made to telegraph to Port Clinton, the first telegraph station, but the operator not being about, an engine was fired up, and Messrs. Lyon and Miller, together with the man who had seen Booth, proceeded at full speed to overtake the regular train.
